

# GOOD TO GO.

Let go of everything, get changed and go. This moment starts with you. You are the one that gets on that bike or ties the laces. For yourself. For the moment. For friendship. For the love of the sport. We are there too. You don't have to worry about that. We offer comfort so that you can get into your comfort zone. Headwind, tailwind or side wind, together we get into the flow. We make sure you can enjoy yourself. Don't forget to enjoy it. Enjoy every mile. Every bump in the road or pebble in the path. All the beautiful distances we cover together. The comfortable moments, but also the moments of setback and going to extremes. The sounds along the way, the smells of the season and the moments of success. Wherever you go and whatever that success may be.

We enjoy the acceleration, going to the max, stopping on the way or that well-deserved drink afterwards. We enjoy the company or that moment for ourselves. We discover new places, run into old acquaintances and often encounter ourselves. And that has motivated us to continue for almost half a century - since former yellow jersey wearer Rini Wagtmans decided that cycling clothes should be more comfortable. We believe in the magic of distance. The rhythm of the ride. The anticipation of the next round and looking back on the previous run. On the road and beyond. As enthusiasts and professionals. We enjoy the big and small moments. We enjoy together.

ONE THING IS CERTAIN: WE WILL BE GOOD TO GO AGAIN TOMORROW. AND WE WILL ENJOY EVERY SECOND OF IT.

DEEP WINTER		SPHERE	CADENCE	TARAX	HI VIS	WADDED II
	RACE FIT	RACE FIT	RACE FIT	RACE FIT	RACE FIT	RACE FIT
FABRICS	We designed the Deep Winter jacket with the needs of the winter cyclist in mind. Designed for the coldest days of the year with various functionalities that are specifically designed to keep you warm.	High-quality European fabrics with a fashionable print. The sleeves and body are windproof: the Softshell membrane provides protection against wind and water, while maintaining the fabric's breathability.	With its many features, the Cadence jacket is multi-purpose and one of the top products in our winter collection. This versatile jacket breathes functionality.	Our Tarax jacket is an extremely stylish winter jacket that is also comfortable and has the functional specifications that a good winter jacket should have. With fashionable graphical print.	Say hi to the Rogelli HI VIS jacket! The term HI VIS stands for high visibility. Due to the reflective panels and details you will be visible from every angle for your fellow road users.	This highly functional winter jacket provides optimal protection against the cold and the wind because of the insulating synthetic down lining. The wadded cycling jacket is light, thin and flexible, yet warm.

RACE FIT	RACE FIT	RACE FIT	RACE FIT	COMFORT FIT	COMFORT FIT
The Radius jacket has one purpose: to <b>protect you</b> against the wind. The front of this lightweight cycling jacket is completely windproof due to the Dynashield 5000 membrane. The elastic side panels extend from the waist to the arms.	The development of our ATTQ winter jacket is based on three important elements: warmth, visibility and comfort. The result is a functional and technical winter jacket that perfectly combines these three elements.	The design of the Rogelli Infinite winter jacket is all about enjoying the distance endlessly. Comfort is paramount in this windproof lightweight cycling jacket. The elastic powerband around your waist fits perfectly, even when you're bended in cycling position.	The name says it all: the Essential Rogelli winter jacket is an absolute must-have for every cyclist. The warm and windproof Dynashield 5000 fabric protects against the wind, as well as being water-repellent.	Be ready for a freezing winter! Get on your bike and don't let cold temperatures stop you from enjoying your favorite sport. Made with a very warm and windproof Dynashield 3000 fabric.	A comfortable entry-level jacket, because enjoying is our core business. Features a water-repellent and windproof membrane that protects against external weather conditions.

ESSENTIAL	FOCUS II	ARTICO	TYRO	CORE
RACE FIT	RACE FIT	RACE FIT	RACE FIT	RACE FIT
The comfortable padding, seamless suspenders and double layer of stretch fabric around the knees provide ultimate comfort in the winter months.	The Focus II is an all-around cycling bib tight with the focus on keeping your muscles warm. It is perfect for milder winter days.	The Artico bib tight <b>protects against the cold weather.</b> It's made of Dynashield 5000 softshell & Aquabloc fabric. The pant features a thin windproof crotch layer.	In addition to warmth and freedom of movement, the Tyro also offers <b>optimal</b> ventilation thanks to the breathability of the fabric.	The Core is <b>a basic cycling bib tight from our collection</b> with a Race fit, made of a brushed Dynatherm Flex fabric.

# ALWAYS ULTIMATE VISUAL COMFORT AND PERFECT VIEW.

INTERCHANGEABLE LENSES

Easily take the lenses out of the frame and simply click in a pair of alternate lenses. In that way, the glasses are suitable for every weather situation.

 $\Diamond$ 

The nosepiece can be shaped to the nose contours. In that way, the glasses are comfortable for everyone.

The hypoallergenic rubber temple tips can be shaped to the contours of the head.

In that way, the glasses are com-

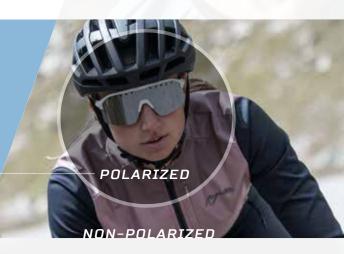

fortable for everyone.

TR90 is a lightweight and
flexible material. Thereby, the
glasses are bendable and have
a high fracture resistance. TR90
safe guards quality and sustainability.

POLARIZED LENSES

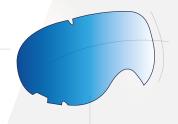

Polarized lenses are a great option for anyone who spends time outdoors. If you're working out, especially when doing high-glare activities around water or snow, polarized lenses help reduce glare and provide additional clarity while keeping your eyes protected.

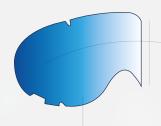

### What's the difference between Cylindrical Lenses and Spherical Lenses?

Spherical lenses curve horizontally and vertically around your face, giving the goggles a bubbled look. Cylindrical lenses curve horizontally while remaining flat vertically, giving a flat look.

ADJUSTABLE TEMPLE TIPS

Spherical Lenses

Cylindrical Lenses

# SPECIFICATIONS DESCRIPTION

CLEAR LENSES These transparent lenses allow nearly every ray of light- Wear them at night to keep wind, bugs and dirt out of your eyes.

Best for night riding.

Light transmission 90-95%

YELLOW LENSES The sunny hue increases clarity and can brighten colors. The tint helps objects pop against dark or gray backgrounds.

Best for stormy weather.

Light transmission 70-90%

This darker, neutral shade won't distort colors, which means you can discern red lights from yellow ones.

But it enhances contrast less than colored tints. Best for sunny days.

Light transmission 15-18%

REVO is a contrast increasing coating which provides mirror lenses.

Because they make objects appear darker, mirrored coatings often are paired with lighter shades.

Best for glaring sun.

Light transmission adds 3-7%

PROTECTION

All frames are engineered with a protectant in the frame material that preserves the color pigment to reduce fading, while offering high resistance to UV radiation and stress cracking.

	TERRAZZO	HEARTS	CADENCE	FARAH	WADDED
	RACE FIT	RACE FIT	RACE FIT	RACE FIT	RACE FIT
FABRICS	A sleek design, because the fabrics offer all the functionalities you need as a winter cyclist: <b>the jacket is windproof, water-repellent and insulating.</b> But with a cheerful stylish print!	A unique design with love and passion for the cycling sport. High-quality European fabrics combined with a stylish heart print. <b>Provided with optimal ventilation, insulation and windproofness.</b>	The Cadence breathes functionality and should not be missing from your winter cycling wardrobe. With its windproof and water-repellent Dynashield 5000 membrane, this versatile jacket offers optimal protection against wind and rain on chilly days.	Defy the cutting cold in style this winter with the Farah winter jacket. The subtle graphic print is based on mountain peaks.	The wadded elements provide enough insulation to create a lightweight, sleek and flexible jacket that is yet warm enough for the winter. Fashion and functionality combined perfectly.

ATTQ

ESSENTIAL

RACE FIT

CORE

PESARA

**COMFORT FIT** 

RACE FIT

The development of our ATTQ

winter jacket for women is **based on three important elements: warmth,** 

visibility and comfort. The result

is a functional and technical winter

jacket that perfectly combines these

The Essential winter jacket is windproof and water repellent and protects against wind and first raindrops. The neutral design gives the cycling jacket a stylish look and you can easily combine it with your favorite bib tight.

COMFORT FIT

Our Core winter jacket is a basic

winter jacket that any cyclist

can enjoy. The water-repellent

and windproof Dynashield 5000

membrane applied to the sleeves

and body makes the Core suitable

The Pesara jacket, a functional winter jacket that every cyclist should have in her wardrobe. The perfect basic jacket in a fashionable color and with a nice fit.

0° - 15°C / 32° - 59°F

three elements.

0° - 10°C / 32° - 50°F

0 ° - 15°C / 32° - 59°F

for (mild) winter days.

RACE FIT

COMPETITIVE

- **PRO FIT** PROFESSIONAL

The Pro fit feels like a second skin to the body. This ensures minimal friction and provides an

aerodynamic effect.

# -COMFORT FIT

RECREATIVE

The Comfort fit is a regular fit that is very comfortable and offers you optimal freedom of movement.

The Race fit is a slim fit that fits perfectly to the body, making the cycling shirt very comfortable and flexible.

#### TOP MEN (CM)

Every body is built differently. At Rogelli,

we strive to find suitable clothing. Rogelli uses three kinds of fits, namely comfort,

race and pro.

**SIZE C** To measure your hip, place the measuring tape at the widest point of the hips.

**SIZE D** Is the length from the top of the back to where the bottom of the shirt should come.

SIZES FOR EVERYONE.

**SHORT**DISTANCES

1-3 HOURS The Rogelli Active padding is a qualitative entry-level model of our collection and is made for both novice and regular cyclists. The Active padding has a maximum thickness of 9 mm and offers excellent cushioning and the pre-shaped wings provide extra comfort. The 3D Design Zero Friction also gives optimal freedom of movement and prevents irritations and chafing. The 3D Design means that all foam volumes are distributed on both side, 70% on body side and 30% on saddle side. All foam levels are made with very smooth transitions and the construction press lines are positioned on the back side. This allows to have no point of hardness on the top surface, that remains clean and very comfortable. The PURE fabric is a seamless soft fabric that makes irritations and chafing a thing of the past and feels soft to the skin.

- Comfortable padding for both novice and regular cyclists
- 9 mm padding
- Dual density (D80 kg/m3)
- **3D Design Zero Friction**: Ensures optimal freedom of movement that prevents irritations and chafing
- PURE fabric: Seamless top layer and soft fabric that prevents irritation
- Antibacterial
- Pre-shaped wings for optimal fit

#### SPECS

- First layer: PURE fabric 90% Polyamide + 10% Elastane
- **Second layer:** ESSENCE foam density 65 kg/m3 3 mm thickness
- Perforated
- Main layer: FIT foam density 85 kg/m3 10 mm thickness Gel

**MEDIUM**DISTANCES

2-4
HOURS

The Rogelli Comfort Gel padding is made for the cyclist who is looking for comfort by more frequent use. The Comfort Gel padding is suitable for medium and long distances between 120 and 240 minutes. The gel inserts and the dual density (D80 kg/m3) easily reduces vibrations and ensures that you can enjoy your bike ride comfortably. The perforated padding and LINEX fabric top layer provide optimal ventilation and easily transport sweat. LINEX Fabric is made of soft microfiber, which allow great softness, good elasticity, high abrasion resistance and a very soft feel to the skin. The 3D Design Zero Friction also gives optimal freedom of movement and prevents irritations and chafing. The 3D Design means that all foam volumes are distributed on both side, 70% on body side and 30% on saddle side. All foam levels are made with very smooth transitions and the construction press lines are positioned on the back side. This allows to have no point of hardness on the top surface, that remains clean and very comfortable.

- Made for the cyclist looking for comfort by more frequent use
- 14 mm padding with gel insert
- Dual density (D80 kg/m3)
- **3D Design Zero Friction:** Ensures optimal freedom of movement that prevents irritations and chafing
- LINEX fabric top layer: Seamless fabric, great elasticity, feels soft and fits like a second skin
- Antibacterial
- Pre-shaped wings for optimal fit

#### SPECS

- First layer: LINEX fabric 81% Polyamide + 19% Elastane
- **Second layer:** COMFORT foam density 50 kg/m3 5 mm thickness Gel
- Main layer: COMFORT foam density 80 kg/m3 11 mm thickness Gel

MEDIUM-LONG
DISTANCES

3-5 HOURS The Rogelli Power Gel padding is a high-end padding for cyclists looking for the best fit and cushioning during their ride. The Rogelli Power Gel padding is made for rides longer than 3 hours and for medium to high intensity use. The Power Gel pad has a Flat Design Zero Friction that is designed to provide ultimate protection, support and comfort. Flat Design Zero Friction has been developed to have a flat surface in contact with body skin. The flat surface avoids any kind of possible friction, giving a great freedom of movement. This eliminates annoying irritations and abrasions so you can enjoy your ride to the fullest. In the production of the pad, gel components have been incorporated into the pad to ensure a comfortable seat on the saddle. The perforated pad and VELLUTO fabric top layer provide optimal ventilation and easily wicks away sweat. VELLUTO Fabric is made of soft microfiber, which allow great softness, good elasticity, high abrasion resistance and a very soft feel to the skin.

- High-end padding for cyclists who looking for the best fit and comfort)
- 14 mm padding with gel insert
- Dual density (D85 kg/m3)
- Flat Design Zero Friction: Flat design designed to provide ultimate protection, support and comfort
- VELLUTO fabric top layer: Seamless fabric, great elasticity, feels soft and fits like a second skin
- Antibacterial
- Perforated padding for extra ventilation
- Lightweight

#### SPECS

- First layer: VELLUTO fabric 80% polyamide + 20% elastane
- Second layer: COMFORT foam density 60 kg/m3 -
- 4 mm thickness + Perforated
- Main layer: PRO foam density 95 kg/m3 11 mm thickness + Gel

**LONG**DISTANCES

5+ HOURS The Rogelli EVO-1 padding is one of the highest quality padding in our collection. It is made to ride longer than 5 hours by intensive use. The top layer is made of the VELLUTO fabric, which is made of recycled Polyamide and Elastane. Characteristic to this fabric is a great smoothness and very fast drying. However, this fabric has a high abrasion resistance and a very soft feel to the touch. The 13mm thick padding is perforated for extra ventilation. The fabric also has absorbent capacity and ensures that the sweat is optimally transported and dries quickly. The EVO-1 padding has a Flat Design Zero Friction that is designed to provide ultimate protection, support and comfort. Flat Design Zero Friction has been developed to have a flat surface in contact with body skin. The flat surface avoids any kind of possible friction, giving a great freedom of movement.

- High-quality padding made for long rides by intensive use
- 13 mm padding
- Dual density (D120 kg/m3)
- Flat Design Zero Friction: Flat design designed to provide ultimate protection, support and comfort
- Recycled VELLUTO fabric top layer: great smoothness, very fast drying high abrasion resistance and a very soft feel to the touch
- Antibacterial
- Perforated padding for extra ventilation
- Absorbent ability that easily wicks away sweat
- Pre-shaped wings for optimal fit

#### SPECS

- First layer: VELLUTO fabric, 78% Recycled polyamide + 22% elastane
- Second layer: COMFORT foam density 60 kg/m3 -
- 2,5 mm thickness + Perforated
- Main layer: PRO-EVO foam density 120 kg/m3 10mm thickness
